Admiral Daniel Murphy, Special Assistant to the Vice President, was briefed by CIA on the Latin American narcotics situation on 11 Mar. DDO/LA and IAD [redacted] as well as DDI/OGI, made 15-minute presentations to the Admiral on topical areas of interest: a) cocaine and marijuana in Colombia and ~~Mexico~~ *Jamaica*, b) trafficking routes and patterns, c) Mexican opium and marijuana, and d) money laundering. The first three presentations

The Admiral said he would call a task force together of principal officers of all agencies involved in the drug program. They would put together a plan of what they needed to cope with the situation, legalities aside.

(continued over)

When the plan is finished, Admiral Murphy would go to the Attorney General to get appropriate changes in the law. He asked if CIA would sit on such a committee. He was told, that like the NNICC, this would be a law enforcement-related committee and CIA may attend as an observer, not a member. We, however, are prepared to support the policy-makers with strategic narcotics information in this regard.

3. The Admiral noted that he would be accompanying Vice President Bush to the Bahamas to discuss the narcotics situation there during the week of 14 March.
